

CLAIMS LISTING

This listing of claims will replace all prior versions, and listings, of the claims in the application.

1. (Currently Amended) A glue for controlling pests that attack wood or wood products, ~~the glue comprising: a resin; and bifenthrin,~~ wherein the bifenthrin has a mean particle size of 1-10 μm .

2. (Currently Amended) The glue of claim 1, further comprising: one or more additives ~~agents for improving spreadability.~~

Claims 3-4. (Cancelled)

5. (Currently Amended) The glue of claim 1, wherein: the concentration of bifenthrin in the glue ~~comprises results in a concentration of~~ about between 25 grams of active ingredient per cubic meter (g ac/m^3) and 100 grams of active ingredient per cubic meter (g ac/m^3).

6. (Currently Amended) The glue of claim 1, wherein: the resin is a phenol formaldehyde resin.

Claims 7-20. (Cancelled)

21. (New) The glue of claim 2, wherein the additives comprise a fungicide, fire retardant, or combinations thereof.

22. (New) The glue of claim 2, wherein the one or more additives improve the spreadability.

23. (New) The glue of claim 22, wherein the additive is a flour.

24. (New) The glue of claim 1, wherein the resin is a melamine urea formaldehyde, a urea formaldehyde, a resorcinol, a polyurethane, an isocyanate, a polyvinyl chloride (PVC), an acrylic, or an isocyanate polyethylene or combinations thereof.

25. (New) The glue of claim 1, wherein the wood product is Plywood, Laminated Veneer Lumber (LVL), Finger jointed product, Oriented stranded boards (SB), Stranded Boards (SB), Glue laminated Lumber (Glu-Lam), Particle boards, Medium Density Boards (MDF), or Solid wood or combinations thereof.

26. (New) The glue of claim 23, wherein the flour comprises wheat flour or macadamia flour.
